Capabilities Statement

Flight 1 Technical Training Services LLC, founded in 2019, delivers a broad spectrum of Flight Training and Aerospace Engineering. The company has access to a wide range of aircraft, from Cirrus SR-22 to jets, including the SF-50. We are staffed by professional commercial pilots and graduates of the USAF Test Pilot School. We develop and deliver custom flight training curriculum through the use of simulator's ground and flight training, aerial surveys, and partnership with Part 135 Air Charters Service.

Flight 1 Technical Training Services LLC delivers a broad range of aviation and engineering services to commercial, aerospace companies, and government customers. We tailor solutions to meet our customer challenges. We develop and deliver technical training curricula through ground, flight, and simulation. We are staffed with commercial FAA pilots and USAF Flight Test personnel. Flight 1 has access to an extensive range of aircraft, including the newest single-engine jet, the SF-50.

To delivering full spectrum flight services.
